

Cheat Sheet for Paypal Signup and Activation

Follow these instructions to get your Paypal Account for First Steps Online.

1. Go to: <u>www.paypal.com</u> and click on "Register" in upper right corner.

This page gives you 2 choices. If you want to set up a Paypal Business account, click on the dark blue button on the right side, "Start Using". If you just want a personal (easier) account, skip down to #7 below.

3. (Business Account) On this page you will need to insert your email address that will become your Paypal Payment address. Click Next!

Enter y	our email address to subscribe or sign in.	
ที่อยู่ส	อีเมล	
	nevt	
	HEAL	

4. Paypal want to know what TYPE of business you are opening. To keep it simple, I recommend clicking on "individual." You may be required to get a business number from your local government. Each country has different requirements.

5. This page allows you to insert information about your business. For the long run, I recommend you set up a business account, but you'll need to add more information along with other details for your country.

 Start using 		
o Business Information	Register to open a l	ousiness account.
o Account holder information	Set a name for the login.	
	รหัสผ่าน	ป้อนรหัสผ่านอีกครั้ง
	Please provide information a	bout your business.
	ชื่อ	นามสกุล
